

Mega Tsunami & The Warning...

Immediately leave California and all coastlines of America

October 6, 2022 - Words from Jesus thru Sister Clare

(Clare) May the Lord keep us in His perfect will, Heartdwellers... Amen. Today a leader in the community was given a message that talked about the warning and a mega-tsunami. Lord, I remember the dream Ezekiel had of the sea creatures flying through the air from the ocean, and landing on the streets, an octopus landing on a gas pump, sting rays flying through the air and landing on people's windshields, and all different kinds of fish and sea creatures being tossed out of the ocean onto the land. And after this mega-tsunami was brought up, that was the first thing I thought of. Lord, was this dream about this mega tsunami?

(Jesus) "Yes it was, and that is why I brought it to mind when she talked about it, and it is coming very soon. Many have put off moving from California, although many times I have prompted them. Those who have not responded and have resisted Me will perish. That is not My will, but because they have not listened to the promptings I gave them, and the promptings from their angels and other signs I have sent them, they will perish.

"It is not My heart to see this happen, that is why gases are being let off on the ocean floor, plus the gases all up and down the coast, have been ample warnings to leave. And the deep-sea creature which came up onto the beach was also a warning, because it was poisoned by the gases from underground, below the ocean.

"To those of you who have resisted Me, I say... I love you and care deeply about your welfare, but without obedience, I cannot save you. For you, it will be too late. When it happens, know beyond a shadow of a doubt that I love you and did not want you to suffer this fate. So please, do not blame Me. I have given you ample warnings.

"The East coast will also be devastated by these changes, and every location along the coast lines of America is going to experience them. My people, move away from sea level, for the level of the sea is about to change. Go to high ground and remove yourself from the fault lines that are so unstable. A significant geological change is coming very soon. You have enough time to move, but very little beyond that.

"My people, understand that the Earth is responding to the corruption of man, which is beyond anything ever known in the history of this planet. Satan has set himself against Me, venting his full wrath in a final attempt to hurt Me. I loved Lucifer, who became Satan, and gave him the highest honors in serving Me, but that was not enough for him, he wanted it all. He wanted to dethrone Me and take the worship for himself. What a terrible shame that he has brought this upon himself. Becoming God's enemy means guaranteed destruction for that soul, whether it is of human or angelic origin.

"There will be much mourning and repentance after these events: Massive destruction of America and an open invitation for your enemies to come and sack your nation, pillaging and claiming land as their own. Intervention will happen if you pray and fast, causing your prayers to be more effective. Pray for the unsaved that are not ready to die. That includes those living in sin and working for evil governments as they live in your nation, but are plotting for its destruction."

(Clare) Lord, please tell us about the warning.

(Jesus) "It will come as a total shock, without any warning. Yes, the football season is a clue to the time it will most likely happen. Everything moving will come to a complete halt. People will find themselves either on the brink of Heaven or the brink of Hell. Yes, they shall be shown their destination as it stands now. Their lives will flash before them, both the good and bad deeds they have done, and those that have not been confessed and forgiven.

"My dove, you will see the things that displease Me in your life and will receive grace to change them in the time left to you. Do not waste these graces, beloved, for they will not be reissued in the same strength. Be careful not to become distracted with things that pertain to others. Rivet your attention on those things you must do to change and begin at once to make those changes.

"Satan will try to downplay and take these convictions from your minds, reasoning that they are just too extreme, and no one can be that pure. Do not allow these lies to take over My truth. Do not put off your conversion, many of you will not have time to be lazy about repentance. The more you put it off, the slimmer your chances of being forgiven and the greater your chances of ending up in Hell or in the Fires of Purification.

"Some will not be able to stand what they have become and commit suicide. Please discourage them by speaking of My Mercy, and that I can wash them clean and give them a new start. There will be groups of liberal Christians that will minimize their sins as if they were not sins. Modern man has been so hardened in his conscience that he no longer responds appropriately to sinful thoughts and deeds. But I assure you, My standards have not changed, and no matter how hard it will be, do not allow yourself to be put in the group that was stiff necked and did not receive correction, but tried to soft pedal sins in order to continue on in their sin.

"Things will happen in rapid succession, but with enough time for each one to decide on their response. Pray that they will believe and choose Me."
